

# Implement Payments to streamline the accounts receivable process

OEC Payments, in partnership with Stripe, presents a targeted solution for dealership parts departments and accounting addressing challenges such as delayed payments, complex reconciliation processes, and waiting for Cash on Delivery. Our secure, quick, and cost-effective system seamlessly integrates with RepairLink, streamlining the payment process. Enroll now for a simplified and efficient payment experience for parts transactions.

Enroll to experience:

## Faster payments

- Speeds up processing of credit card orders
- Any customer who sets up a payment method can be charged for RepairLink orders or phone orders.
- No more waiting for COD (Cash on Delivery) – buyers charged directly through RepairLink
- Improve compliance with government regulations, by storing credit card information in a secure system.

## Streamlined reconciliation process

- Downloadable reconciliation reports for accounting with relevant data points
- Less back-and-forth with customers
- All the information you and your buyers need is available in the RepairLink portal, including:
  - Link to receipt
  - Line item for refunds/returns
  - All transactions are tracked and searchable by PO number and invoice number

## Quick & easy returns

- Returns are managed by the dealer
- Once the return is inspected, the dealer can easily complete the return in RepairLink
- Option to add a restocking charge & refund the shops payment method
- Eliminates the need to issue a check

## Payments help dealers:

### Streamline orders

- Reduced cycle time on receivables

### Experience greater parts sales

- Dealers using RepairLink expand their buyer network and increase online orders
- Reduce abandoned or deleted shopping carts by making it easier to buy parts

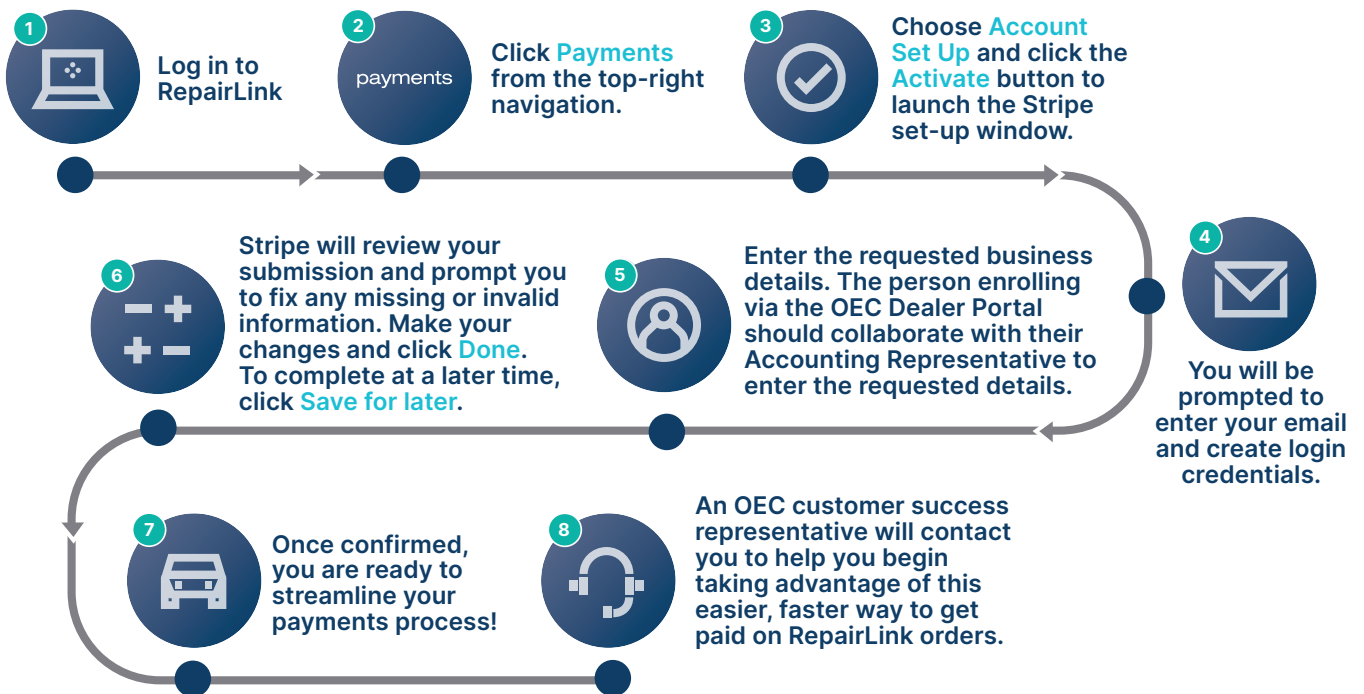

Enroll your dealership in Payments as a merchant in the RepairLink portal today.
